

Project: Geneva Road

Recipient: Mountainland Association of Governments

Location: Orem, Utah

Purpose: The primary purpose is to improve regional and local traffic mobility for north-south travel in central Utah County by widening from one lane in each direction to three lanes in each direction throughout most of the corridor. The project increases capacity on a 10.7 mile long North/South route in Utah County. The population of Utah County is expected to grow from 475,000 in 2006 to 900,000 in 2030. This project will serve 38,000 vehicles per day. This route is a vital link in the transportation system of the County, providing the only viable alternative to I-15. Funding for this project will increase safety and better accommodate all modes of transportation.

Amount: \$2,000,000
